

## BENEFITS OF WAVECOM SOLUTIONS ISPRI

- Higher network efficiencies by sharing DS-1 facilities among multiple local calling areas
- High-speed access for incoming voice and data from customers or remote users
- Reduced call set-up and tear-down times by up to 15% when compared to analog services
- Reduced busy signals
- Increased bandwidth when compared to standard DS-1 delivery
- Simplified customer usage tracking
- Improved administrative control

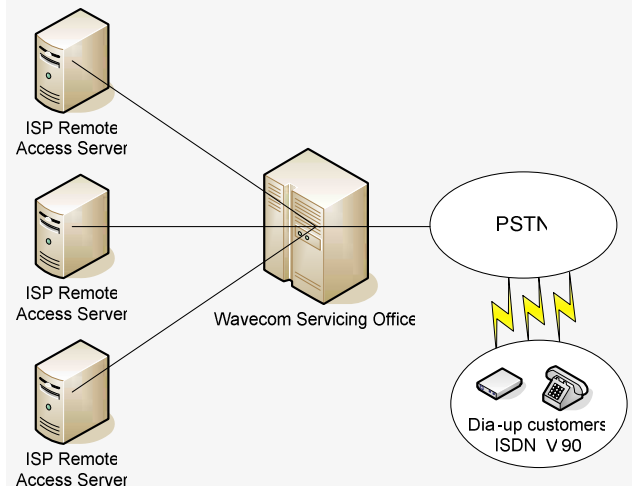

## ABOUT WAVECOM SOLUTIONS ISPRI

Wavecom Solutions' ISPRI offers dial-up Internet Service Providers a way to provide their customers quicker call connect times and faster download speeds. Using ISDN-PRI technology, the service delivers inbound digital termination capabilities via a single DS-1 for dial-up modem pools.

## FEATURES OF WAVECOM SOLUTIONS ISPRI

- 1.544 Mbps digital service
- ISDN-PRI protocol
- Analog and digital compatibility
- Multiple DS-O channel aggregation

## HOW WAVECOM ISPRI WORKS

## WHO WE ARE

Wavecom Solutions offers state of the art communications services to enterprise clients, local and international carriers, and residential customers. We leverage our robust inter-island fiber optic network to deliver services that are flexible and easily customized to provide you a premium end to end customer experience.
