

## ABOUT WAVECOM SOLUTIONS PRI PLUS

Wavecom Solutions PRI Plus is the optimal solution for your business communication needs. With connectivity to your PBX and Internet access for your data network devices PRI Plus offers the flexibility you need at a cost you want. Unlike analog services, signaling information is carried via a dedicated channel to your PBX which allows PRI Plus to speed up the control of your calls, making your communications faster and more efficient. The result is reduced infrastructure cost and complexity. For businesses that require voice and data service, PRI Plus is a total business communications solution.

## FEATURES OF WAVECOM SOLUTIONS

### PRI PLUS

- Up to 23 available channels for voice; a 24th channel to support signaling between your equipment and the Wavecom network
- Voice handoff as a DS1 PRI connection
- Standards based voice service to your PBX with assured interoperability
- Internet access is included
- Dedicated bandwidth up to 40 Mbps per location
- Data handoff as an Ethernet connection
- Fractional or full PRI connectivity
- Inbound and Outbound Caller ID Name and Number

## BENEFITS OF WAVECOM SOLUTIONS

### PRI PLUS

- Leverages the advantage of full PRI features and high performance data connectivity at a cost-effective price
- Reduces the total cost of ownership on your business telephony and data connection needs
- Maximizes the efficiency of your communications systems with dynamic bandwidth allocation of voice and Internet data
- Additional managed services, including new managed security services are available to protect your business investment

## WHO WE ARE

Wavecom Solutions offers state of the art communications services to enterprise clients, local and international carriers, and residential customers. We leverage our robust inter-island fiber optic network to deliver services that are flexible and easily customized to provide you a premium end to end customer experience.

# PRI Plus

FAST • FOCUSED • FLEXIBLE

Wavecom Solutions PRI Plus solution delivers a feature rich integrated voice and data service. Our new IP enabled solutions manage and optimize bandwidth so you get maximum value from your network link. PRI Plus provides you with both a 10/100 Ethernet connection and a DS-1 PRI connection to your data and voice equipment. It also offers analog line service for your fax and credit card machines, point-of-sale devices, alarms or emergency lines.
