

Web Hosting

Scalable, Reliable Solutions for the Web

Product Description

Web Hosting Overview

In today's competitive market it is critical that your business has online visibility but starting up your own business website can be confusing and costly.

With Pacific Light Net's Hosted Web and Email solutions we can help you register your domain name and provide vast number of hosted web services for as little as \$15 per month.

If you already have a Website hosted in-house or with another supplier, you may not be getting the features and reliability you need today. Check out our online demo to see what you may be missing.

Choose a Web Hosting Solution that's right for you.

From a basic online business presence to a full-blown e-commerce enabled online store, Pacific LightNet's Hosted Web and Email is the essential business solution for you. Start with a basic package and upgrade anytime. Manage your Website with ease with *WebsiteOS*, our powerful website management resource. Visit our website at www.plni.net for more information.

Benefits to Your Business

- Offsite web and email hosting ensures reliability
- Scalable web and email hosting to adapt to your needs
- Zero-tolerance spam filtration
- Pre-made templates and tools can significantly reduce your deployment time
- E-commerce and applications support the latest web tools, languages and technologies

Who We Are

Pacific LightNet is a facilities based telecommunications service provider headquartered in Hawaii. We offer a full range of products to help your business grow. Our main offices are located on Oahu but we have facilities across the state and connectivity worldwide.

Web Hosting Service Plans

WebLite

Our starter package gets your company on the Internet with up to 250 megabytes of Web page content (more than enough to handle pages of text, pictures and other information). You also get 15 email addresses for your staff, which are Web-enabled so you can email from outside the office with access to any browser. Web-siteOS gives you log files that track how often your site was viewed, and even which pages!

Bronze Plan

For larger Websites, our Bronze package offers up to 500 megabytes of Web page content and increased traffic capability. Twenty (20) email boxes handle more staff and numerous other features are included.

Silver Plan

As an expansion to our Bronze package, the Silver package offers up to 1 GB of Web page content, thirty (30) email boxes and a full line up of value added services.

Gold Plan

With 2GB of Web page content, forty (40) email boxes, real audio/video, shopping cart capability and too many other features to mention, your company is now in the "big leagues" of online presence.

Platinum Plan

Get all of the incredible features in the Gold package, but reap the added benefits of 7 GB of content and sixty (60) email boxes.
