

# Wholesale Voice for Carriers

FAST • FOCUSED • FLEXIBLE

## SERVICE OVERVIEW

Wavecom Solutions's carrier voice network consists of only carrier grade voice connections at the best price for the entire 808 Area Code (all of Hawaii)—both originating and terminating—from a single point of interface, either as IP or TDM/SS7. Wavecom Solutions Wholesale Voice service for Carriers is supported via our switched network in Hawaii that includes a high availability dedicated Class 4 Softswitch that handles carrier voice traffic. It includes the following features & interface options:

- Termination of Carrier Traffic
- Toll Free Origination
- Area Coverage includes the total Hawaiian LATA (All 808 numbers—wired and wireless)
- TDM/SS7 carrier-to-carrier trunks at Honolulu, Lost Angeles, or other mutually agreed points
- IP trunking via Internet or dedicated data network

## ADVANTAGES OF WAVECOM SOLUTIONS'S CARRIER VOICE SERVICES

If you are terminating or originating voice traffic in Hawaii, we are confident you will find our service offerings have superior pricing, quality and flexibility.

- Intrastate transport via Wavecom Solutions's Hawaiian Interisland Fiber Network
- 100% carrier-grade QoS (TDM/SS7 to other carriers in Hawaii)
- Single point of interface for the entire state of Hawaii

## WAVECOM SOLUTIONS VOICE TERMINATION & TOLL FREE ORIGINATION

Wavecom Solutions owns the only subsea fiber optic network in Hawaii that connects all six major islands. Our network, our 24/7/365 Service Operations Center in downtown Honolulu, and our strong base of enterprise and residential customers provides us the ability to deliver a robust set of carrier grade voice services.

In 2010 we became a leader in the Voice Termination market for Carriers terminating traffic in Hawaii. In 2011 we intend to become a leader in the Toll Free Service Origination market for Carriers in Hawaii. Carriers choose Wavecom Solutions because of our price, our quality, and our flexibility – all of which makes it easy to do business with us.

## ABOUT WAVECOM SOLUTIONS

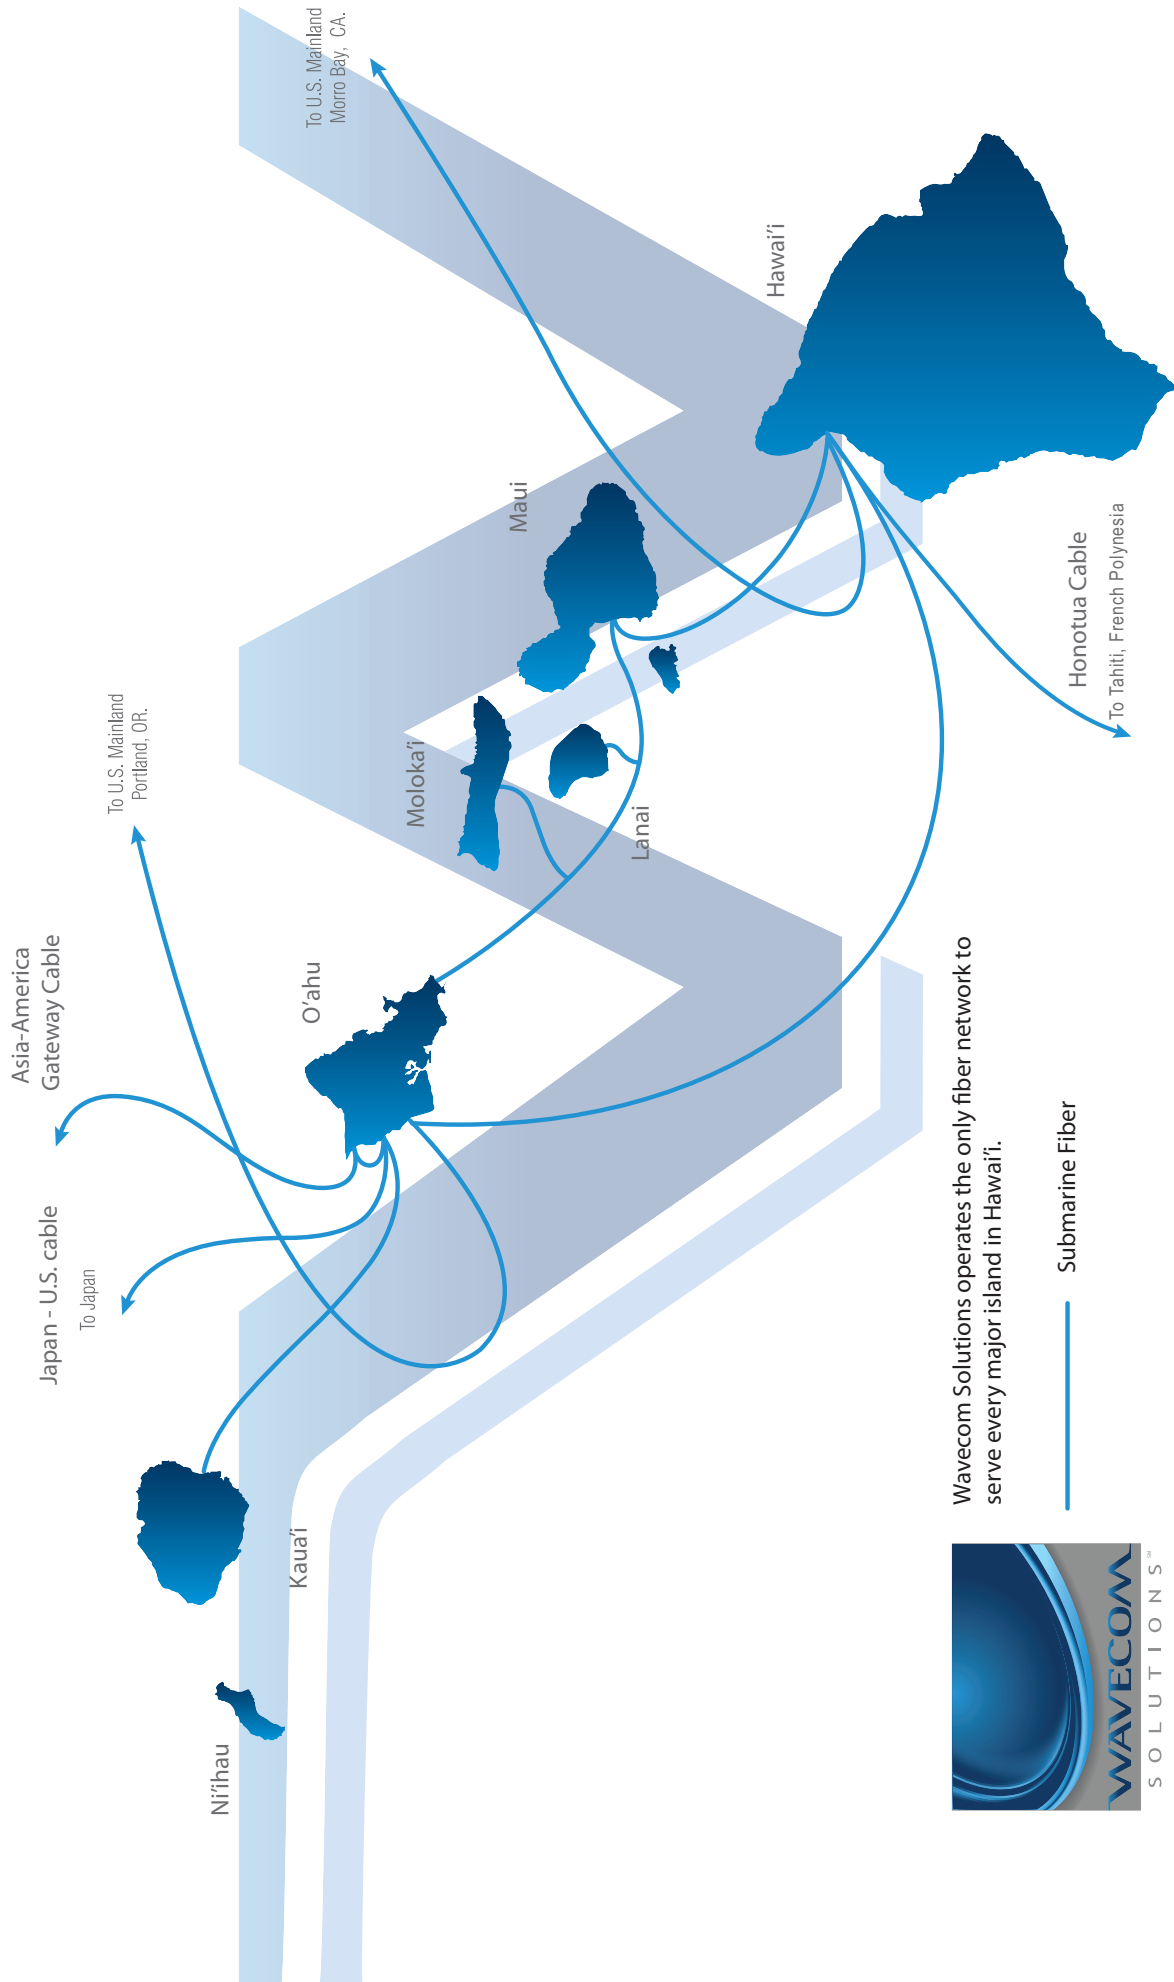

Wavecom Solutions, a Hawaii-headquartered communications company, is the partner of choice for enterprises and local and international carriers requiring flexible solutions that meet their business needs. Wavecom Solutions offers a full range of integrated communication solutions, including managed services, cloud-based solutions, high-capacity carrier-grade services, local and long distance voice services, business-class Internet, collocation and cable landing services, special access, and enhanced data services. Wavecom Solutions has the only sub-sea fiber network connecting the six major Hawaiian Islands, and has been serving the greater Hawaii and Asia-Pacific market since 2001.
